

Gentle Post-operative Dressing & OTC bandages

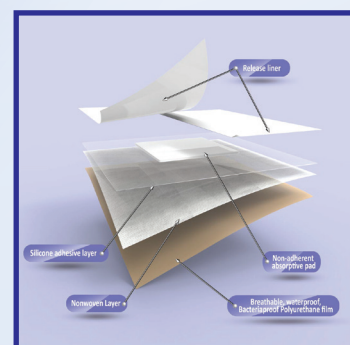

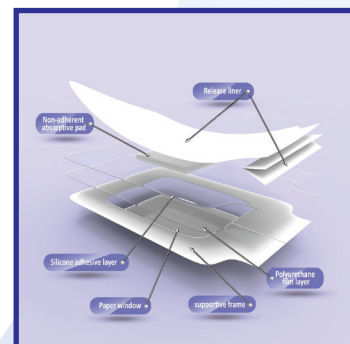

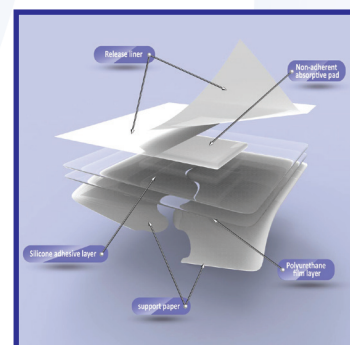

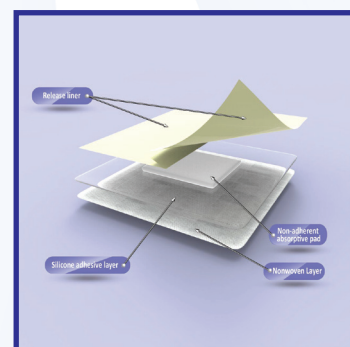

Post-operative silicone dressings:

Pharmapore® Gentle: Post-Operative dressing made of soft and conformable nonwoven fixative layer, coated with silicone adhesive and absorbent wound pad laid at the center of the nonwoven layer. The wound contact side is protected with two release liner flaps. The dressing is individually packed in heat seal pouches and sterile by EO gas.

Pharmapore® PU Gentle: Post-operative dressing made of waterproof, virus proof and bacteria proof polyurethane film that allows showering while the dressing is in place. The polyurethane film comes with top backing paper to allow application of the film without wrinkling.

Pharmapore® PU Frame Style Gentle: Same as **Pharmapore PU Gentle** but with frame delivery system to allow easy application.

Pharmapore® Ultra Gentle: Post-operative Dressing made of polyurethane film layer laminated on top of the nonwoven layer, coated with Silicone adhesive and absorbent wound pad placed at the center. It combines the softness of Pharmapore Gentle and the waterproofness of **Pharmapore® PU Gentle**.

Gentle Post-operative Dressing & OTC bandages

Silicone Film Dressings:

Protectfilm® Gentle: Transparent, waterproof, virus proof and bacteria proof film coated with silicone adhesive.

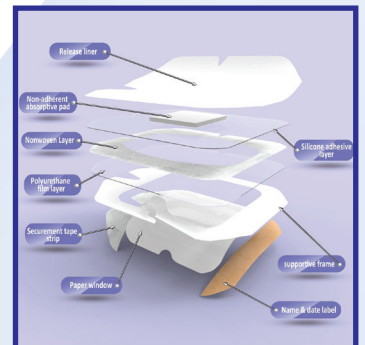

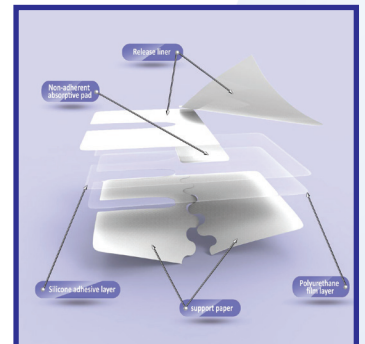

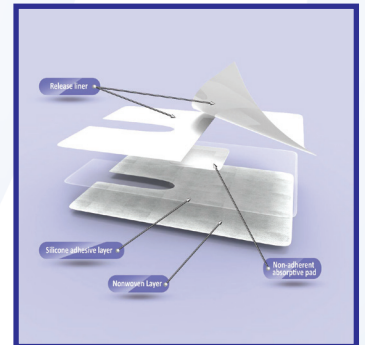

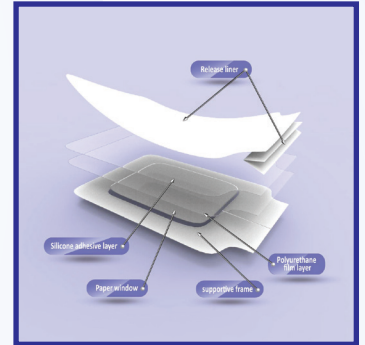

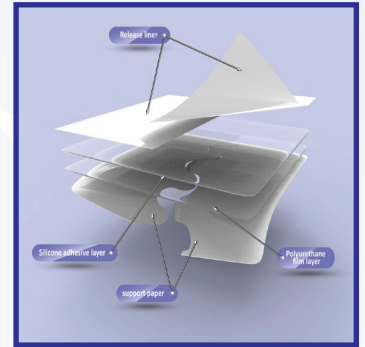

Protectfilm® Gentle Frame style: Transparent, waterproof, virus proof and bacteria proof film coated with silicone adhesive, with frame delivery system for easy application.

IV silicone dressings:

Pharmapore® IV Gentle: Soft conformable nonwoven layer, coated with silicone adhesive and absorbent wound pad placed at the center, having U shaped slit. The structure allows easy fixation of catheters and cannula.

Pharmapore® PU IV Gentle: Waterproof, Virus proof and bacteria proof polyurethane film coated with silicone adhesive and absorbent wound pad placed at the center, having U shaped slit. The structure allows easy fixation of catheters and cannula.

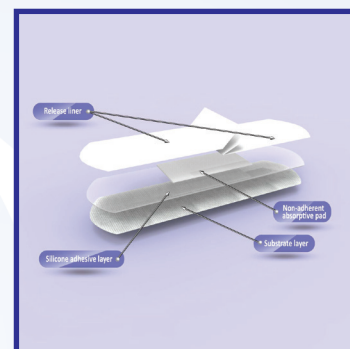

Pharmapore® PU IV Gentle FS: Same as **Pharmapore® PU IV Gentle**, but with frame delivery system for easy application.

Gentle Post-operative Dressing & OTC bandages

Silicone adhesive OTC bandages:

Cure-Aid® Gentle: Adhesive plasters for the retail market made of different types of substrates e.g. polyurethane film, polyethylene film, elastic fabric, nonwoven,...etc., coated with silicone adhesive and absorbent wound pad at the center of the substrate. The Cure-Aid Gentle is individually packed and sterilized by EO gas.

Indication:

Post-operative silicone dressings:

Post-operative silicone dressings are designed for exuding wounds. They are intended for acute wounds, such as surgical wounds, cuts and abrasions. It is optimized for post-op use and blood absorption.

IV silicone dressings

IV silicone dressings are designed for cannula and catheter fixation, allowing atraumatic removal or dressing change without exposing the patient to additional pain.

Silicone Film Dressings

Silicone Film Dressings are designed for a wide range of superficial wounds such as pressure ulcers category 1 and 2, superficial skin injuries and superficial burns. Silicone Film Dressings protects fragile and sensitive skin.

Silicone adhesive plasters:

Indications: minor cuts, scratches and abrasions

Contraindications:

· Dressings should not be used on people who are allergic to the dressing or any of its components.

Precautions:

- Dressings are not intended for use within internal body cavities.
- If infection develops during the use of the dressing, clinically indicated antibiotic therapy should be initiated.
- Control of blood glucose should be monitored for diabetic foot ulcers.
- Delicate newly formed blood vessels could produce blood stained wound fluid.
- Sterility is guaranteed unless pouch is damaged.

Instructions for use:

- Initial disinfection of hands before Gentle dressing application.
- Cleanse the wound.
- The dressing should overlap at least 1 cm onto the skin surrounding the wound.

Removal:

- Dressing may remain on the wound for up to 7 days.
- Dressing may be removed when wound is about to close.
- The dressing should be removed when clinically indicated.
- Irrigate with saline if residual dressing is left on the wound.

Features:

- Soft breathable cover
- Highly absorbent and conformable pad

Gentle Post-operative Dressing & OTC bandages

- Low allergy adhesive
- Safe and secure fixation
- Gentle adhesive allows easy removal with minimal trauma
