

Compression Bandages

Vendapress® – PharmaBand – Elastic Plaster

A) Vendapress®:

Description:

Self-Adhering Elastic Bandage delivers comfortable compression.

Made from Nonwoven combined with of high strength elastic non-woven cloth and a latex or latex-free coating which allows cohesive properties.

Features:

- Sticks to itself – no clips or pins required.
- Easily torn by hand – no scissors required.
- Conformable with movement – will fit to difficult body contours.
- Lightweight and porous for comfort and breathability.
- Easy to apply and remove – an excellent alternative to tape.
- Premium grade cohesive bandage that adheres to itself, never skin or hair, without pins, clips or tape.
- Latex-Free version for whom have sensitive skin toward natural latex.

B) PharmaBand:

Description:

Strong Cotton Elastic Bandage with Clip delivers higher compression pressure.

Features:

- Clip snaps in place, holds securely and is easily adjusted.
- Provides support to weak, sore muscles and joints.
- Comfortable design is intended for prolonged wear.
- Easy-to-use wrap design.
- Fits discreetly under clothing.
- Wrap conforms to multiple body parts for versatile relief.
- Soft cotton feel is comfortable against your skin.
- Wash and reuse many times.
- Non sterile, individually wrapped.

C) Elastic Plaster:

Description:

Strong cotton Elastic adhesive Bandage delivers higher compression pressure.

Features:

- Durable, Strong, conformable tape.
- Convenient, custom fit around hard-to-tape areas.
- The cotton-based cloth construction allows this elastic adhesive bandage to remain breathable and strong, while still containing enough elasticity to allow for regular movement.

Intended Purpose for Compression Bandages:

- Reduced pro-inflammatory cytokines resulting in an anti-inflammatory effect, reducing pain and promoting wound healing.
- Reducing oedema.
- Securing a primary dressing.
- Limbs and joints that require support.
