

POVI Solution

Description:

Topical antiseptic solution contains 10% Povidone Iodine equivalent to 1% available iodine.

Indications:

- Disinfection of wounds, lacerations, abrasions and burns.
- Preparation of skin and mucous membranes prior to surgery.
- Post-operative application to protect against infection.
- Treatment of infected skin conditions.

Contra-indication:

- Not to be used by persons who are allergic to iodine.
- Not be used on patients with a non-toxic nodular colloid goiter.

Precaution:

- Hypersensitivity to povidone-iodine.
- Application to large areas of broken skin or for extended period of time should be avoided as excessive absorption of iodine may occur. Absorption of povidone-iodine may interfere with thyroid function tests.
- Use with caution in newborns, pregnancy and lactation.

Warning:

- For external use only
- Do not use in the eyes
- Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.
- prolonged exposure to wet solution may cause irritation.
- If irritation, sensitization, or allergic reaction occurs and lasts for 72 hours, get medical help.

POVI Solution

How to use:

- Clean the affected area.
- Gently squeeze the POVI bottle, then apply it as paint full strength with sterile gauze or as wet dressing for skin and wound disinfection.
- The area may be left uncovered, or you may cover it with a sterile bandage or dressing.
- Clean the bottle's nozzle after use.
